

Aetna Fertility Benefits

Both Aetna medical plans offer comprehensive benefits related to infertility.

Here's an overview:

What's covered

- Diagnosis of underlying cause of infertility
- Diagnosis, evaluation, and treatment of involuntary infertility
- Stimulated intrauterine insemination (IUI)
- Artificial insemination (intra cervical and IUI): up to 6 cycles per lifetime
- Sperm washing and isolation (simple and complex)
- Ovulation induction: up to 6 cycles per lifetime
- Prescription drugs based on type of drug and coverage tier

Maximum benefit

- The plan will pay for covered services up to \$10,000/person/lifetime
- You pay 100% of remaining fertility services

* Some services need to be precertified. Contact Aetna for details.
